

---

**Find ONE partner  
and sit with them**

---

## Dotplots!

- \* take your sticky note and write your height in inches on it  
to help:  $60'' = 5 \text{ feet}$

- \* Put your sticky note on the back board above your height

## **Activity 1.2:**

- \* Find a partner (must be ONE partner!)
- \* turn to page 18 in the book
- \* Read the directions of the activity together

\* Let's explain the activity together

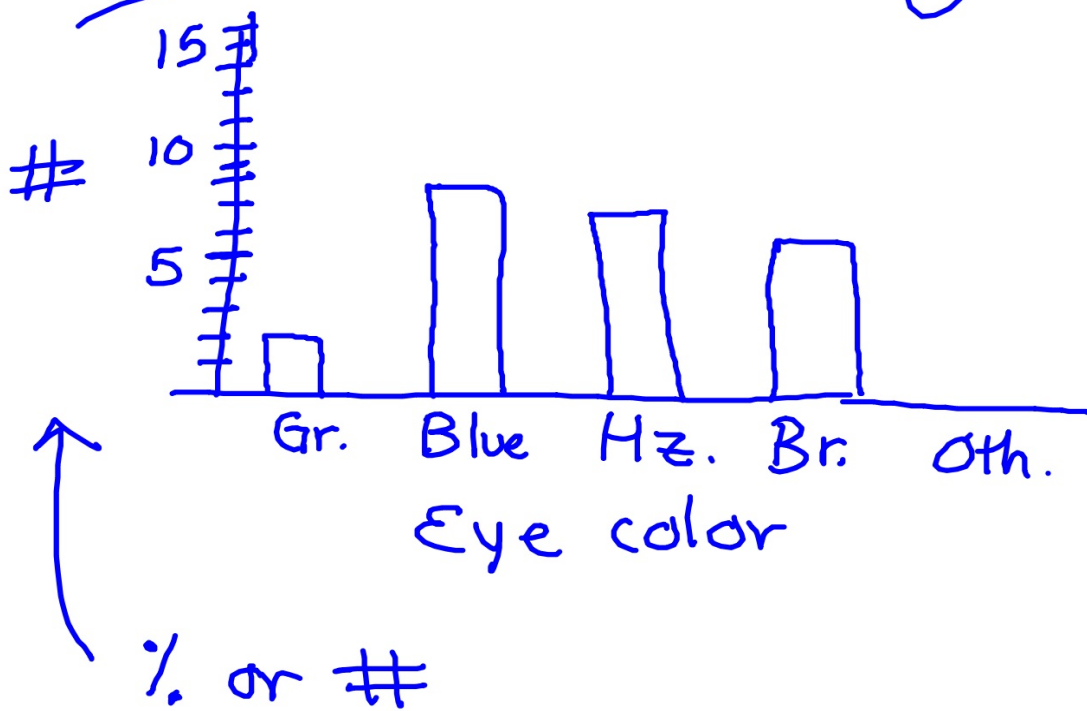

TASK A = read the card of numbers

TASK B = listen to the card of numbers

- Each person will do both
- Flip coin to see which one you do first
  - a = heads
  - b = tails
- after each task, recite alphabet before trying to remember the numbers
- record results on board

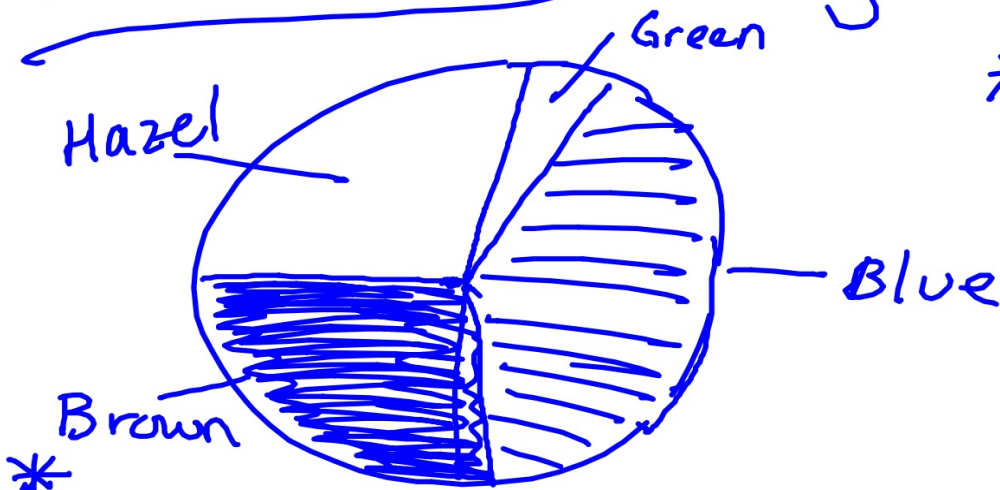

- create class dotplot
- answer last two questions in activity
- add another question:
  - \* What possible things could affect our results? What things could make our conclusions inaccurate?

## Bar chart - categorical

# Pie Chart - categorical

\* only %

## Eye Color

Green	8.7 %
Blue	34.8 %
Hazel	30.4 %
Brown	26.1 %
Other	0 %
